

## 2013-14 UTRU Network Partner Program Report

Annually, UTRU collects data from its 17 Network partners to represent the collective impact that residencies are making on high-need students nationwide. The 2013-14 data reveals a thriving network of programs serving 18 districts in every corner of the country. The following is a snapshot of the impact that residency programs in the UTRU Network are experiencing this year:

### UTRU Network Programs:

- Prepared more than 2000 graduates to serve high need students and schools
- Experienced powerful retention rates of graduates:
  - 87% taught for 3 years
  - 82% were teaching after 5 years
- Reported 31% of graduates teaching in a STEM subject and nearly 10% teaching English language learners
- Recruited and selected 627 new residents:
  - 11% of applicants were accepted from a pool of 5,500 applications
  - 47% of applicants accepted were career changers, entering the program with 3 or more years of work experience after college
- Described a diverse cohort with 34% of residents who are people of color
- Trained residents at 178 partner school sites, working with approximately 450 mentor teachers
